## Education

### **Australian National University**

Ph.D (Economics)

February 2015 – *Current*

M.Economics

February 2012 – November 2012

### **University of Queensland**

B.Economics (Hons)

February 2004 – November 2008

## Publications

Alexander, R., and Ward, Z., 'Age At Arrival and Assimilation In The Age Of Mass Migration', *The Journal of Economic History*, forthcoming.

## Professional Experience

### **Grosvenor Management Consulting**

*Consultant*

April 2017 – *Current*

I am employed at Grosvenor to complete a specific project for the European Commission relating to public procurement in Australia and New Zealand. This has involved: identifying data sources; preparing for data acquisition; supporting the IT team in data acquisition; assisting with data validation; and helping with survey design and follow-up.

### **Petit Poll**

*Co-founder*

May 2016 – *Current*

As a co-founder of Petit Poll I am responsible for survey design and analysis, as well as marketing and communication. Petit Poll combines non-representative polling data with a hierarchical Bayesian model to cheaply deliver meaningful Australian political polling.

### **The Centre for International Economics**

*Economist*

January 2012 – August 2013; August 2015 – November 2015

The CIE is a privately-owned economic consultancy. I contributed to reports for public- and private-sector clients as part of a small team. Topics included: valuing public sector outputs; housing sector taxation; wheat price elasticities; variations to modern awards; migration; and labor markets.

### **GoCampaign**

*Director*

July 2011 – May 2015

As a co-founder and director of GoCampaign (later GoCatalyze), a data analysis tool, I was responsible for the creation and development of a business as part of a small team. GoCatalyze completed the ANZ Innovyz START accelerator program in 2013 and won the iAward Data Category in 2014. GoCatalyze is now part of GO1.

### **Reserve Bank of Australia**

*Cadet/Analyst/Senior Analyst*

February 2009 – December 2011

I conducted research on topics related to banknotes, for example an econometrics-based analysis of banknote demand during the financial crisis. I was also responsible for the creation and analysis of datasets, and gave banknote-related presentations to the public.
